ARCUS 98 DA

The ARCUS-98 DA offers precision engineering and superb ergonomic balance in a very affordable package. Designed to meet the exacting standards of the military and law enforcement agencies, its construction features only the finest grade forged steel, milled to exacting specifications. Superior in quality to many popular 9 mm pistols, the ARCUS-98 DA has been specifically designed to meet a wide variety of shooting requirements with little or no modification. Features include dovetail white dot sights, manual safety lever, automatic internal firing pin safety and a half-cock safety. The dependable construction and design of the ARCUS-98 DA make it the perfect choice for home protection, self-defense, and recreational shooting.
